

## Technology Tips...and more

Technology makes so many aspects of our businesses possible. Small companies can compete with larger ones, we can work from disparate and far-flung locations, we can do more with less...and much more. Technology is a vital and growing asset in most of our businesses. It takes more time than ever to keep pace with it. In that light, we enjoy sharing technology trends, tips and tools with you every so often. Here are three articles that are quick reads on technology topics we think you will enjoy.
